FOR: Method and Apparatus for Molding  
Components With Molded-In Surface  
Texture

ASSISTANT COMMISSIONER FOR PATENTS

WASHINGTON, D.C. 2023

February 11, 2003

ATTN.: DRAWING REVIEW BRANCH - PROPOSED DRAWING CORRECTION

Dear Sir:

- 1) We are enclosing a file copy of Fig. 3 showing proposed corrections that are circled by hand and highlighted.
- 2) These corrections show that the substrate (30) is clamped and sealed by the seal frame (16). Original Fig. 3 inadvertently erroneously omitted the substrate (30) at the location between the seal frame (16) and the foam backing (22) of the cover sheet (20). The correction is supported by original Fig. 5 and the written description at page 24, line 5 to page 25, line 8.
- 3) Approval of the proposed corrections is respectfully requested. Proper corrected formal drawings will then be filed.

Respectfully submitted,

Ernst M. SPENGLER  
Applicant

WFF:ar/4116  
Enclosure: postcard,  
hand-marked file copy  
of Fig. 3
